

Investor Announcement

PT Moya Indonesia Inaugurates Drinking Water Treatment Plant in Bekasi, Indonesia

Largest Ultrafiltration Installation In Indonesia.

On September 30 , 2012 PT Moya Indonesia (PTMI), a wholly-owned subsidiary of Moya Asia Limited (Moya Asia), which is a subsidiary of the Bahraini closed joint stock company Moya Holding Company B.S.C. (c)(Moya), inaugurated the completion of the first phase construction of the Water Treatment Plant (ITP) Tegalgede Regional Water Company (PDAM) Tirta Bhagasasi, Bekasi which provides 220 litres per second. Making it the Largest Ultrafiltration (UF) installation in Indonesia that provides clean, bacteria free water.

The two phased, fully automated project aims to undertake the design, build, upgrade, rehabilitate, operate and transfer of a fresh water treatment complex and associated network development. In the second phase:

1) the existing plant will be rehabilitated a total capacity of 640 litres per second. The increase will be able to serve an additional 17,600 units of household connections, or 105,600 people.

2) a new 500 litres per second water treatment plant construction, with a new intake, and a new reservoir, with a capacity of 2,500m³. The water supply capacity will increase to 1,200 litres of water per second, with water production capacity reserve of 10 percent - 20 percent of the installed capacity.

This 25 year BOT project aims to serve 59,200 house connections, or 296,000 people in Bekasi Regency areas, which include Lemahabang, North Cikarang, and South Cikarang.

Earlier this year, PTMI entered a BOT contract in Tangerang for 25 years, and continues to consider similar projects in Indonesia. These Business to Business "B2B" schemes were introduced in Indonesia to expedite infrastructure development. Moya's two BOT projects are a fine example of Public-Private Partnership projects that Moya is continuing to develop in Indonesia.
